TRIPLE TAP® TAPPING SLEEVE PROUDLY MADE IN THE USA

- Accommodates a maximum of 0.9 inch of diameter range.
- No special tools required to install the sleeve.
- Seals on the branch aperture and seals 360 degrees around the pipe in case of a beam break.
- Flanged outlets are recessed per MSS SP-60 to accept tapping valve.
- Design features are similar to cast ductile iron sleeves.
- 3/4" test outlet to allow hydrostatic pressure test before tapping the pipe.
- Available with carbon steel flanges upon request.
- Available with line stop outlet and completion plug upon request.

**NOW AVAILABLE IN SIZES UP TO
AND INCLUDING 16" NOMINAL**

Now Available:

Triple Tap®: 14 and 16 Inch Sizes

Wide Range Tapping Products
